Portfolio: <https://eduardomarras.netlify.app>

GitHub: <https://github.com/eduardomarras>

Telephone: +34 649 770 726

Address: Barrio del Pilar, Madrid, Spain

Labor Experience:

WEB DEVELOPER AT INTUYE.

IT Services and Consulting. 04/2023 - 08/2023.

Development of an e-commerce website with .NET Core 6 and Azure:

Utilizing ASP.NET Core and Razor Pages, implementing a microservices architecture with Azure and API management through Postman.

Implemented serverless functions using Azure Functions, which significantly reduced infrastructure costs. Additionally, incorporated monitoring and logging techniques using Azure Application Insights to ensure robust performance tracking.

Developed and managed CI/CD pipelines with Azure DevOps to automate the build, test, and deployment processes, enhancing the efficiency and reliability of software delivery.

Academic Background:

Amazon Web Services (AWS) Systems Developer Course.

Tajamar Center. 02/2024 - 07/2024 (600h).

Cloud Application Development using AWS SDKs and development tools.

Utilization of services such as EC2, S3, RDS, SNS, Lambda, Docker, Kubernetes, Terraform, Grafana.

Certified in AWS Cloud Practitioner and Developer Associate.

Microsoft Azure Web Developer Course.

Tajamar Center. 10/2023 - 02/2024 (400h).

Web development using .NET with ASP.NET Core: MVC, Razor Pages, Blazor, and RESTful API.

Cloud development on Azure with services such as Azure VM, App Service, SQL Database, Blob Storage, Active Directory, Functions, Cosmos DB, and Azure DevOps. Certified in Azure Fundamentals and Azure Administrator Associate.

Higher Level Vocational Training Title: 'Senior Technician in Multiplatform Application Development (DAM)'.

University Alfonso X El Sabio. 09/2021 - 07/2023.

Object-oriented programming in Java, C#, and PHP.

Mobile application development for Android using Android Studio.

Web programming with HTML, CSS, JavaScript, and Bootstrap.

ABOUT ME:

I am a responsible, proactive, organized, and energetic person, focused on continuously improving my skills and constantly seeking new opportunities. In my recent experience as a web developer at Intuye, I worked on developing an e-commerce website using .NET Core 6 and Azure, utilizing microservices and Azure DevOps for CI/CD.

I hold a Higher Degree in Multiplatform Application Development (DAM) and have expanded my knowledge with specialized courses in AWS and Azure, obtaining certifications in AWS Cloud Practitioner and Azure Fundamentals. I am looking to join a full stack or DevOps position, where I can work in teams with Agile methodologies and apply my skills and knowledge to innovative projects.

Currently, I am focused on learning languages and technologies such as .NET, C#, Azure, AWS, Angular, Docker, Kubernetes, and Terraform.

Languages: Spanish: Native. English: B2, Technician.

SKILLS:

Operating Systems used: Linux, Windows, Mac.

Front-End Programming Languages: Angular, React, JavaScript, Bootstrap.

Back-End Programming Languages: C#, Java, Python, PHP.

Databases: MySQL, PostgreSQL, SQL Server, MongoDB, DynamoDB.

DevOps: Docker, Kubernetes, Terraform, Grafana, Prometheus.

Version Control: GIT, GitHub, Azure DevOps.

AWS: EC2, S3, RDS, Lambda, ECS, Redshift, Cloud9, and SNS.

Azure: Virtual Machines, Blob Storage, SQL Database, Functions, Kubernetes Service.

Methodologies: Agile, Scrum, and Kanban.

Design Patterns: Model-View-Controller (MVC), Mediator, Repository.

Languages for Mobile Applications: Android and iOS.
